

Centralized Approach

- 24 X 7 monitoring of all WLAN activity
- Real-time detection of rogue WLANs
 - Rogue Access Points
 - Soft APs
 - Ad hoc networks
 - Accidental associations
- Requires limited personnel resources
- Cost effectively deployed and easily scaleable across any enterprise

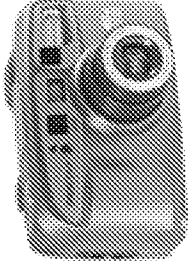

What is AirDefense?

Sniffers/Scanners Vs. AirDefense

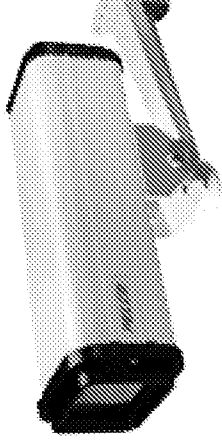

Stateless Snapshot

NetStumbler
Kismet
AiroPeek

- Site Surveys
- Scanning
- Sniffing
- War Driving

Stateful Monitoring

AirDefense

- Site Surveys
- Scanning
- 24 x 7 Monitoring of workstations & their AP associations for Analysis
- Intrusion Detection & Protection
- WLAN Management
